The Village of Hyde Park  
WATER AND SEWER DISTRICT APPLICATION

**Terms and Conditions**

Adherence to all rules and regulations is required.

The Village of Hyde Park Water/Sewer District shall retain the right to review any future water usage beyond the scope of this application, and shall retain the right to review any future sewer discharges beyond the scope of this application.

A diagram or sketch of the location of curb connection and pipeline to the building must be furnished to the Water/Sewer District with this application. A detailed diagram must be received and approved by the District prior to the start of construction.

Final details concerning service size, scheduling, costs and related issues must be agreed to and any initial fees and charges paid in advance of the start of construction.

Changes to the scope of construction will incur additional charges.

Any upgrades to the existing infrastructure must be paid by the customer asking for the service connection.

Please notify the Village office when final plans are ready for inspection and approval. All work performed is under the direct supervision of the Village Foreman or his/her designee.

**I/We declare, I/We are the owner/owners of the above described property and this application is made with my/our knowledge and consent. By my/our signatures, we acknowledge that we have read, understand and are bound by the Terms and Conditions listed above, as well as any and all applicable Ordinances; Rules and Regulations that govern.**
